WHAT'S IN A NAME?

As orders and sales began to take off, Jessica found herself in need of a company name. After several weeks of passing up cocktail parties and perfect beach afternoons to work on her design pieces, she realized that there were constantly three figures who kept her company – the family dogs: LeeLee, Lucy, and Gracie-Bean. Without these three dogs, designing would not be nearly as much fun.

FUNCTIONAL, FUN, SOPHISTICATED, AND UNIQUE.

These are just some of the qualities about the home décor of Lulee & Bean Co. Several years ago, as founder and designer Jessica Hulslander stood back to admire the art pieces hanging on her wall, she couldn't help but notice how visually unappealing the light switch plate was. She then realized, art can be everywhere! Soon she began designing home décor and accessories to excite, personalize, and add visual appeal to life. Jessica has created eclectic and customized pieces to add individuality and beauty to many homes.
